EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 19 to 21 are allowable because the prior art of record does not disclose or reasonably suggest a combination of determining if video images of a speech source are detected, indicating if video images are not detected, detecting if audio signals can be processed, processing the audio signals if it is detected that the audio signals can be processed, and processing the video signals based on a detection that at least a portion of the audio signals cannot be processed. Applicant's Specification, ¶[0022], discloses that if a detecting sensor and a lens do not detect images of a user's lips, then the speech recognition system can alert the user to readjust the lens or reposition the user's lips so that the image can be detected.

Lee et al. teaches that it is known in the prior art for a camera to include an indicator saying that the user needs to be more distant or to come nearer to the camera. (Column 9, Lines 32 to 59) Moreover, it is known to utilize both audio and video information in a speech recognition system to recognize verbal commands, where either the audio data or the image data may be ignored, as taught by *Morris*. (Column 3, Lines 1 to 27) However, while *McMullan, Jr. et al.* teaches that audio transmission may be disabled or muted if an error threshold is exceeded in a field of audio processing, it would not be reasonable to combine *Morris*, *McMullan, Jr. et al.*, and *Lee et al.* to obtain the limitations of independent claims 19 to 21. In some manner, many inventions are made of individual parts, but, here, the parts are from diverse fields of endeavor, and

one skilled in the art would not necessarily be motivated to combine all of the parts from these diverse fields of endeavor involving camera distance sensors and audio processing for a speech recognition system utilizing audio and video information. Applicant's Specification, ¶[0004], suggests an advantage of increasing accuracy of speech recognition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
